## 1. What is the HR?

The Human Regenerator is a quantum pulse device that brings by different intensity electromagnetic impulses between 0,0005 and 38,000 HZ and below 1  $\mu$ s- more than 99% of the human cells in resonance and regenerates them naturally.

### 3. On witch technique bases the HR?

Classical medicine and pharmacy are based on the biology / chemistry!

The Human Regenerator bases on (Quantum) Pyhsics!

The human beeing organism can be considered through two perspectives.

From the biological point of view we exist of muscles, blood, bone, organs, hormones etc.

From the physics point of view we exist of quanta, atoms, frequencies and vibrations.

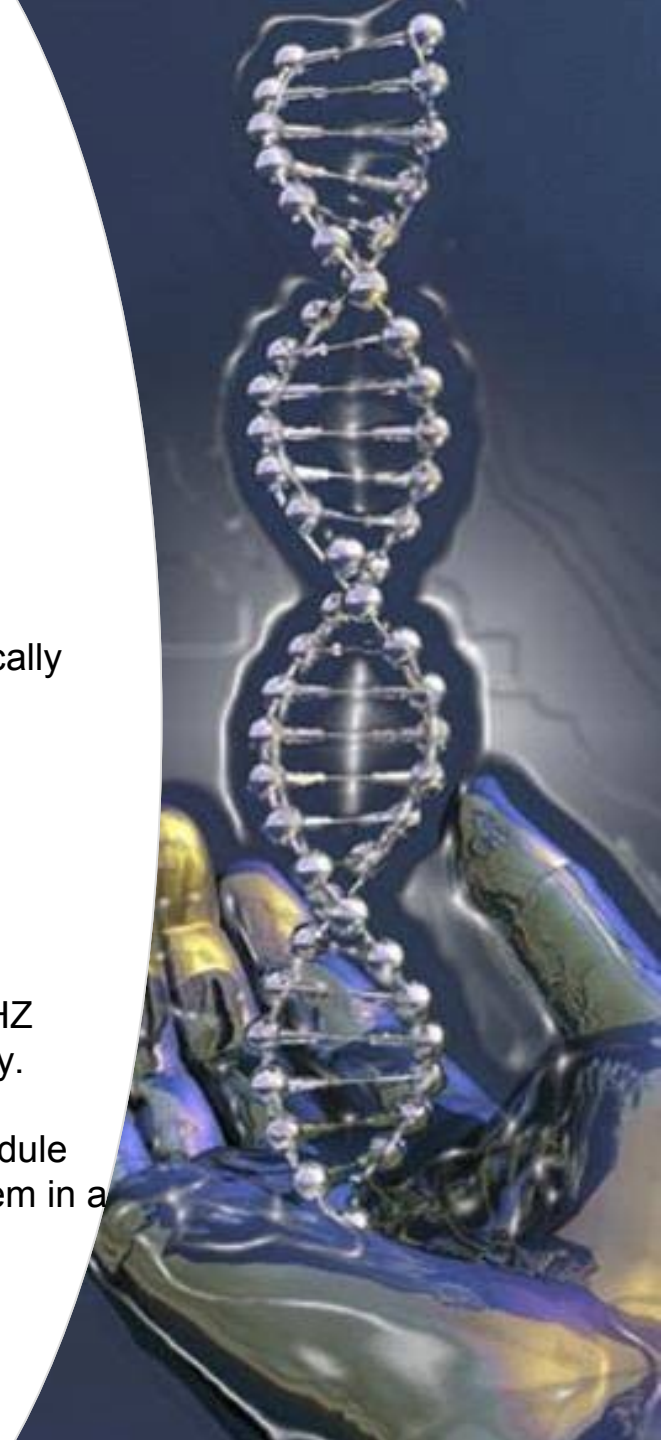

Every cell of the organism whatever biological function it has fulfilled, physically considered, has it's own natural electromagnetic frequency coding.

If a cell is ill, defective or mutates, thus changes the vibration code.

Professor Werner and his team have succeeded in deciphering 99% of all vibrations patterns of the human cells ( Symphony of Life).

These deciphered codes in the frequency between 0.0005 HZ and 38,000 HZ were imitated in compressed field strengths by max. 1us electromagnetically.

The programmed Symphony of Life was inserted in an electromagnetic module which delivers the Synphonie of Life through a highly complicated reel system in a radius of 2 metres to the surroundings.

## Intelligente Cells!

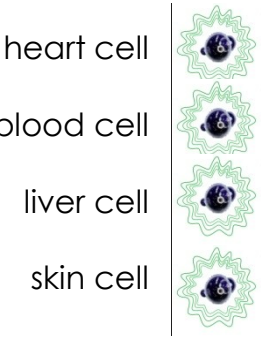

---

In this coarse-schematic representation heart cell, blood cell and skin cell are healthy. Only the liver cell is morbid. Instead of 58 hertz, it pulsates in 40 hertz. Out of this, the biological consequence is an existing or beginning illness of the liver or liver components

Within the radiation of the HR Modul, millions of frequencies and impulses of the body's own are administered in every second to the body electromagnetically. Our liver cell goes about it's own mitochondria only with the frequency in resonance, that it recognizes by it's very own coding. Our liver cell does not recognise all the other frequencies.

After 1 or several treatments the liver cell has gone into it's natural coding (40 HZ) resonance and was regenerated completely. The biological results are: health and and strengthening of the cells, the organism and the immunesystem.

## 6. Does the HR has any kind of side effects?

No, there is no possibility that side effects result.

The coding „Symphony of Life “ was provided from vibrations only belonging to body which imitate 99% of the body's cell frequency.

This is valid universally for all people because the human cells pulsate identically .

So the HR is pure positive energy for the human beings body.

See provement below:

Please note, that there are no side effects approved.

## 8. How does the HR define by other systems ?

The Unique of the HR Module is that it imitates 99% of the body's own vibrations and frequencies.

Usually known bioresonance appliances or electromagnetic devices imitate only small areas of the body's own profile or even non natural body codes.

Therefore the results of that is just a local success or it could even be dangerous (by non natural body codes).

Only through decoding the universal cell-code of almost all natural electromagnetic cell profiles it succeeded to develop a universal regeneration module with impressing results.

## 8. How does the HR work?

What exactly happens if one uses the Human Regenerator.

After entering the Human Regenerator and after activation of the touchscreen panel the object moves into a horizontal position, to start the regeneration modus.

During the regeneration modus cells and organism are stimulated with the Quantum Cell-Code.

One does not feel this process directly in form of warmth or other visible factors.

What most people, however, feel is the reaction of the body.

It begins with prickle in the hands, then in the feet, the cheeks and perhaps other body parts.

(Reactions of suppliers, test persons, friends)

If one stands first time in front of the Human Regenerator, one is dumbfounded, entrancedly, irritates, electrified.

From UFO up to a teleportation device one supposes something futuristic, something strange & novel behind it.

One is impressed of quality and materials.

For some it is a modern art object.

### **11. Why is the HR limited ?**

## 11. Why is the HR limited ?

During the first 4.5 years we will sell just to privat persons, important persons of our time. We will not sell to medical centres, institutes, enterprises, hotels or other BtoB to partners.

This is our strategic plan to place a new technique and new product category carefully in the world.

We won't cause a medical revolution. We want to create something unique, witch can be carefully multiplied in the future.
